5.	some of the SFS (Norsko Promishleno Stopanstvo, Forest Industrial Managements) have pig far with from 60 to 800 pigs, mostly in Malko Turnovo and Grudovo okoliyas. These pigs did not get grain during the winter of 1952-1953.		
	DURVODOBIV I TRANSPORT UNDER THE GORSKITE PROMISHIENI UPRAVIENDE (FORESTRY ADMINSTRATIONS)		٠.
ó,	The Central Committee of the Bulgarian Communist Party and the Council of Ministers in Sofia attached great importance to this Obedinenie under the Ministry of Heavy Industry and therefore they replaced in the beginning of 1953 its cadres which showed no competence and no desire during 1952 to fulfill the plan of the Gorsko Promishlano Upravlenie.		
	THE GORSKO PROMISHLENO PREDRIVATE (INDUSTRIAL LUMBER ENTERPRISE) DI VELDIGRAD PAZARDZHIK		_\
7.	OKOLIYA WITH DIRECTOR TODOR YAMAKOV The assistant director is Popov. The chief engineer is Georgi Velichenov. In this enterprise the forestry workers are driven in winter to work on a 24-hour schedule in extreme cold. Despite this, the plan was not fulfilled.		
8.	The materials produced in the enterprise are used for the following: supplying construction with lumber for construction; supplying industrial enterprises, supplying enterprises for electrification, and supplying mines with supports and lumber for construction.	n	
9.	The workers have actually been breated like slaves, without clothing and food, with very low wages. The blame lies mostly with the chairman of the town people's Soviet, Todor Peev, a Communist.		
	THE GORSKO MICHISHIENNO PREDPRIVATIE IN STALIN		
10.	The Director is Slavi Slavov. The chief initiator for gathering vehicles and pack animals from the villages in the area of the Stalin GPP is Petur Bombov, the chairman of the Ckrug People's Soviet in Stalin. He resorted to confiscating the forage of private farmers without payment and giving it to the GPP for feeding livestock, which were engaged in hauling wood and building materials.		
11.	Despite these measures on the part of the regime, the plan for cutting, hauling, and transporting the materials for the first three months of 1953 was not fulfilled and the workers have not been paid for their work days.		
	THE CPP IN TURNOVO		
12.	The administrative organs and the workers in turnovo and the district of the GPP have a completely passive attitude towards the fulfillment of the plan for lumber production.		
13.	The following persons were accused for non-fulfillment of the plan: Chairman of the Okrug People's Soviet Pavloy; Chairman of the Okoliya People's Soviet in Elenn, Yordan		
	Chukanski; Chairman of the Gabrovo Feople's Soviet Petur Eturski; Chairman of the Turnovo Ckoliya People's Soviet Konakchiev; and the Director of the GPP in Llena, Sava Popov.

	(c) The "Pirin" Mine lacked supports of beech and pine;		
	(d) For the first three months of 1953, 600 cubic meters for towers of electric lines were planned, but only 125 cubic meters were provided;		
	(e) The planned quantity of sleepers for Bulgarian state trains were not produced and delivered because the repair of railroad lines was not fulfilled, and transportation throughout the country was thus hindered;	en.	, A.
	(f) Beech lumber was not supplied for making suitable packing cases for vegetables which were to be shipped from Petrich, Sandanski, and Blagoevgrad okoliyas to Sofia.	eh	8

	(f) The cableway to the Troyan GPF with director Vasil Radev.		
	THE COMPETENCE OF THE TECHNICAL CADRES IN FOREST LUMBER INDUSTRY		
17.	The Ministry of Heavy Industry with Minister Anton Yugov, and the Central Committee of Party hurl heavy accusations at the technical cadres who they think did not prepare ful for the fulfillment of the lumber production plan. They also accuse the workers of operabotage.	Цу	
18.	The enterprise in Kazanluk with chief engineer Boknchev, the enterprise in Razlog with director Nikola Abadzniev, the enterprise in Samckov with Ivan Popov, the enterprise in Gara Trichim with director Angel Millin, and the enterprise in Peshtera with chief engineer Baznarov, are lagging in fulfilling the plan.		
10	They have not organized the train of carts and trucks. In many places the workers tare the electric saws under the snow, as was the case in the area of the Gabrovo GPP with chief engineer Boris Naydenov.	ew
